### PUBLIC SERVICE COMMISSION OF SOUTH CAROLINA

#### CLERK'S OFFICE

#### NOTICE OF FILING AND HEARING AND PREFILE TESTIMONY DEADLINES

DOCKET NO. 2020-43-E

**Application of Dominion Energy South Carolina, Inc. for a Certificate of Environmental Compatibility and Public Convenience and Necessity for the Construction and Operation of the Toolebeck - Aiken 230 kV Tie and Segments of the Grantville #2 - Toolebeck 230 kV and Toolebeck - South Augusta 230 kV Tie, and Associated Facilities**

Dominion Energy South Carolina, Inc. ("Dominion Energy South Carolina") has filed with the Public Service Commission of South Carolina (the Commission) an Application for a Certificate of Environmental Compatibility and Public Convenience and Necessity for the construction and operation of the Toolebeck - Aiken 230 kV Tie and Segments of the Grantville #2 - Toolebeck 230 kV and Toolebeck - South Augusta 230 kV Tie and associated facilities. DESC Transmission Planning studies indicate that the occurrence of certain contingencies will result in heavy electrical loading on the existing Aiken area electrical transmission outlet lines as early as 2022. To prevent future excessive loading conditions on these Aiken outlet lines and to distribute the flow of power more reliably and evenly into and around the DESC system, additional electrical transmission paths are necessary between DESC and South Carolina Public Service Authority (SCPSA). After studying multiple options within DESC, with SCPSA, and with Southern Company to decrease the power flow on these Aiken outlet lines, DESC and SCPSA have agreed to establish one new DESC/SCPSA interconnecting tie line - the Toolebeck - Aiken 230 kV Tie - that involves expanding the existing Toolebeck switching station to add 230 kV capability, folding the Grantville #2 - South Augusta 230 kV Tie into Toolebeck, and building a new 230 kV line from Toolebeck to SCPSA's Aiken Substation. In addition to decreasing the power flow on the existing Aiken area electrical transmission outlet lines and more reliably and evenly distributing the flow of power into and around the DESC system, the new tie line will increase the transfer capacity for all utilities interconnected to DESC's electrical transmission system. A Transmission Line Siting and Environmental Report for the Toolebeck - Aiken 230 kV Tie and Segments of the Grantville #2 - Toolebeck 230 kV and Toolebeck - South Augusta 230 kV Tie and Associated Facilities, dated January 2020 and prepared by the Facilities Planning & Siting Division of Pike Engineering, LLC was filed as part of the Application. This Application is filed pursuant to the provisions of S.C. Code Ann. § 58-33-10 et seq. (2015) and S.C. Code Ann. Reg. 102-304 (2012).
